An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John C. Bacocho on June 11 2007.

Examiner's Amendment

Rewrite claim 24 as follow:

24 A computer-readable storage medium having computer-executable instructions for performing the method comprising:

an act of a physical layer receiving a network data packet from a sending computer system, the sending computer system being communicatively coupled to the IEEE 1394 network;

an act of the physical layer parsing a plurality of bytes of packet data contained in the received network data packet;

an act of comparing at least a portion of the packet data to rule data in a physical layer rule register;

an act of determining whether a corresponding link layer is in a reduced power mode; and

an act of determining if the physical layer is to assert a Link On signal based on the results of the comparison and upon determining that the corresponding link layer is

in the reduced power mode, the Link On signal being a signal that, when received at the link layer, wakes the corresponding link layer.
